Rowland Printing Receives FSC Certification

*All paper used in printing is manufactured
from forests managed for long-term sustainability*

PHOENIXVILLE, PENN. (March 14, 2007) — Rowland Printing, a full service printing company serving southeastern Pennsylvania since 1970, announced today it has earned chain-of-custody certification from the Forest Stewardship Council, an international organization that promotes responsible stewardship of the world's forests. Rowland's certification number is SGS-COC-003132, which denotes paper manufactured from well-managed forests, controlled sources and recycled wood or fiber.

“We are pleased to do our part to help sustain the world's forests,” says Jimmy Rowland, president of Rowland Printing. “We encourage all our clients to investigate FSC-certified paper stocks.”

The Forest Stewardship Council (FSC), founded in 1990, is an international organization that promotes environmentally appropriate, socially beneficial, and economically viable management of the world's forests. Chain of custody certification provides a guarantee about the production of FSC-certified products. Chain-of-custody is the path taken by raw materials from the forest to the consumer, including all successive stages of processing, transformation, manufacturing and distribution. For more information, visit <http://www.fsc.org>.
